Robin Pascoe : A Moveable Marriage: Relocate Your Relationship without Breaking It before purchasing it in order to gage whether or not it would be worth my time, and all praised A Moveable Marriage: Relocate Your Relationship without Breaking It:

2 of 2 people found the following review helpful. Scary but HelpfulBy Litr8rThere aren't loads of good books out there on what to do when your spouse comes home and announces that his or her job will be relocating your lives, and your relationship, overseas. I read this book before I moved to Shanghai, and the potential issues she mentions really scared me! However, I was glad she both opened my eyes and empowered me with suggestions. Robin Pascoe offers her experienced viewpoint in *A Moveable Marriage*. The book explores the effects of expat life on the key aspects of relationships. While some people find the tone too pessimistic, the book does have a healthy dose of humor and Pascoe does offer a significant amount of helpful information and numerous worthwhile suggestions. Though every situation is unique to that couple, Pascoe's general analyses are useful, and readers can still learn by thinking about other couples' challenges. Her main argument is that the difficulties couples face create opportunities for them to strengthen and grow as partners. Each chapter tackles a potential issue that may have intensified as a result of an international relocation. As readers might expect, the book is mainly geared toward women, as the majority of trailing spouses are women. However, men may still find it worth a read. Pascoe is a Canadian reporter who writes on global living. She has written three other books on the subject of relocated relationships. Her goal is to provide useful ideas and to empower women to take charge of their moved marriages. To gather information for *A Moveable Marriage*, she conducted a survey--hard copy and via her website--and focus groups. Her husband is a Canadian government diplomat. Check out her website at [...]

27 of 28 people found the following review helpful. The first "get real" book about marriage and relocatingBy YvonneHaving lived the life of a relocated wife for over 3 years now, this is the first book I've read that really gets to the nitty gritty of the marital challenges associated with supporting a husband's moveable career. Not only does Robin tackle issues most couples and girlfriends wouldn't dare discuss - like sex, money, resentment, career, children, indifference, resignation and even depression - she talks about them with alarming clarity and common sense. It's obvious she has lived the life she writes about and that she has survived what we often think is unsurvivable in a relocated marriage. There is a real sense that she has indeed experienced every circumstance she covers in the book and at times it often seems as though she is reading one's mind about the real issues we confront. If you've ever felt that no one truly understood your isolation and loneliness as the relocated spouse of a high flying moveable husband then this book will help you not only understand that your feelings are normal, but also provide tools, tips and strategies for dealing with your emotions and practical daily challenges. This is a book dedicated to the betterment of a healthy marriage during a domestic or international relocation. If your marriage is undergoing a geographical transition, I recommend you read this book before you depart, and pick it up again once you arrive. You can only benefit from Robin's wisdom - and at the same time do yourself a huge favour by not enduring the experience alone.

When you're done reading it, leave it on his nightstand.By Danielle GoyetteDid you know that the divorce rate among expatriates is an additional 50% higher than the national average? Kudos to Robin Pascoe for serving up a reality check on a sensitive subject with a side dish of humor. As a person who has "been there, done that" I highly recommend that both husband and wife read this book. It will give married couples plenty to chew on before expatriating.

A Moveable Marriage: Relocate Your Relationship without Breaking It. With candid talk about the stress on relationships created by children, careers, money, sex, and infidelity, this book is for couples who know that moving isn't all about furniture. Pascoe's own relocation experiences give the book the intimacy and credibility of a conversation with a close friend.

"Frank, funny, and full of astute advice, Robin Pascoe's book adeptly flags the challenges facing any relocated marriage." -- From the book jacket
"Robin Pascoe has done it again! A wonderful description of the bittersweet experiences of the mobile family." -- from the book jacket
"Robin Pascoe has written a gutsy, forthright look at relocation. She says outright what others discuss in hushed tones." -- from the book jacket

About the Author
Robin Pascoe enjoys an international reputation for her three previous books on mobile living and the adjustments required to create happy and successful mobile families. Her humorous and compassionate presentations, informative articles, and popular web site, ExpatExpert.com provide a treasure trove of information, opinion, and humor for families on the move.
