Kev Reynolds : Alpine Points of View (Cicerone Photographic S) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Alpine Points of View (Cicerone Photographic S):

1 of 1 people found the following review helpful. not bad By Jacek Jawien I am a little bit disappointed by this book. I was expecting "typical", "canonical" views from the most famous places in Alps - as a stimulus for me to see them myself in future. Instead, I have received collection of beautiful, however completely unrecognized pictures from totally unknown places. Perhaps that was an idea of the author. But for me, it was disappointing. 2 of 2 people found the following review helpful. Nice Mountain Photography Book By G. Pearson 100 photos in a 200 page book with the photos on the right and text on the left page. The photos are mainly taken from high altitude hiking trails and I find them quite inspirational and often say to myself "wow" I wish I could be there !! It is a smallish and nicely presented book that hikers or nature lovers wanting a taste of fascinating hiking country, will enjoy. Recommended.

This photographic delight of 100 images will inspire a lifetime's worth of new dreams. Fall under the spell of the Alps and their amazing diversity of scenery. From the Maritime Alps behind Nice, to the sun-washed Julians of Slovenia, the Alpine chain is one of the most scenically diverse and exciting ranges on earth. With glacier and snowfield, meadow, scree and rockface, its subtle beauty is revealed in a variety of landscape features, while peaks such as Mont Blanc, the Matterhorn, Eiger, Mönch and Jungfrau are mountains of which dreams are made and ambitions forged. But the best of the Alps are not the sole preserve of the climber, as this collection of photographs prove. The winding trail taken by walkers and trekkers leads to countless vantage points that unfold scenes of heart-stopping splendour, and Alpine addict Kev Reynolds has selected a hundred of his favourites. Alpine Points of View seduces the reader out of the armchair and into Europe's premier range, with illustrations and text creating dreams to be turned into reality.

About the Author Kev Reynolds is a freelance writer, photojournalist and lecturer. A prolific compiler of guidebooks, his first title for Cicerone Press appeared in 1978; he has since produced 27 titles for Cicerone, with others being
