2003Binding: Mass Market Paperback200 pages | File size: 37.Mb

**Michael Goulding, Carlos Caas, Ronaldo Barthem, Bruce Forsberg, Hernn Ortega : Amazon Headwaters: Rivers, Wildlife, and Conservation in Southeastern Peru** before purchasing it in order to gage whether or not it would be worth my time, and all praised Amazon Headwaters: Rivers, Wildlife, and Conservation in Southeastern Peru:

This book, written by an international team of Brazilian Peruvian, and North American scientists, is the first to provide an overview of the ecology of this fantastic array of aquatic ecosystems. If the richness of life is one of our planet's most important features then this book beautifully and authoritatively reveals the importance of the headwaters of the Southwest Amazon.
