If you have a White Mountain habit, as I do, these water-proof maps are a must-have. They are updated to go with the new White Mountains Guide.

Hiking through the White Mountain area is a great pleasure, exercise, and outdoor experience enjoying the beauty of nature. The author emphasizes the safety rules for this undertaking, knowing one's physical capacity and stamina so that the planning can be done efficiently. It is very important to plan the overall distance to cover and altitude to be reached, knowing the steepness of the footway, planning to have time for breaks as needed, and with overall safety in mind. The 26 sections in the book describe the peaks, ranges, ridges, and valleys so beautifully and in so much detail. This book is a must to plan the hike. The details in the descriptions are amazing. The author is VERY knowledgeable.

Baxter State Park map is good however 100 mile wilderness map is inadequate. It does not show all the trails or where to park

AMC's Tyvek map kit provides complete coverage of the hiking trails of the White Mountain National Forest, on six full-color, GPS-rendered maps. Perfect for use alongside AMC's White Mountain Guide, 30th edition, these maps have been fully updated, with an easy-to-use scale and trail-segment mileage. Waterproof, tear-resistant, and built to last. Buy this set and save 25% over individual map prices.
