driving time driving distance together so you can know exactly how long your drive is going to be without having to calculate it yourself. And it got to me super fast! I highly recommend it!0 of 0 people found the following review helpful. A heavy duty atlasBy M. ThomasI bought this atlas 1.5 years ago. I keep it in my car. I use it to doublecheck that my gps is sending me in the correct direction and to plan road trips. The atlas is well put together and I think it will last for many years.7 of 7 people found the following review helpful. An outstanding, practical take-along pick.By Midwest Book ReviewThis new edition of a top-notch road atlas is the one map book American road traveler's can't afford to be without: it pairs color, easily-read maps with a lay-flat spiral binding and updated new edition to cover the latest information on roads. A 3-D elevation shading makes it easy to assess the geography of a route, while indexes for mileage, guides to metro areas and parks, and the latest details on travel options makes it an outstanding, practical take-along pick.Diane C.
