found the following review helpful. Four StarsBy Kyla HuittVery interesting and proved information I didn't know before. Thought there would be more maps.

J. R. R. Tolkiens fictional universe is as vast as the human imagination, so an atlas is a helpful tool to get around. Consider this book your navigational guide to Middle-earth and the Undying Lands. Maps, images, and vivid descriptions in full color create an enchanting reference to all the fantastical places and creatures that sprung from Tolkiens mind. The deluxe, heat-burnished cover makes this a charming addition to your Tolkien library. This work is unofficial and is not authorized by the Tolkien Estate or HarperCollins Publishers.
