By GreenDevil
This is a great book, introspective and occasionally infuriating. I had never heard of the author and stumbled upon this, bought it because it sounded interesting. Halfway through, I wasn't sure what to make of the the darker turn the book was taking, but in the end it pulled through and the book struck a chord with me. It was probably the most emotionally charged but accurate description I have read of the good and bad of traveling. After reading so many other travel books fixated on garbage inner peace themes, this book was an intelligent and raw critique. Will make you want to leave everything behind and hit the road.

About the Author
Mark Calamuje is originally from the fine state of Missouri but currently resides in Arizona, which used to also be a fine place to live until it was assaulted on one side by the influx of imitation cowboys driving immaculately clean pickup trucks, and on the other side by the invasion of the upper middle class elite.
