concerned that this map had been updated since the renumbering. This map was totally accurate as to all highway numbers. We found it to be easy to read and in sufficient detail for even single lane roads. It is not of much use in any town or city though. The area along the A7 between Malaga and Marbella is very difficult to navigate and this map will not help you at all. (And beware that Google maps are totally incorrect as to that part of Spain.) 0 of 0 people found the following review helpful. Five Stars By BoomDogTraveling?
