A good story of any family down the street.By MirraniI wouldn't say there was a plot to this book, but I also wouldn't say that it really needed one. The story centers

around Meena, a girl whose parents immigrated to England from India and is having to deal with the prejudices of a town that doesn't really accept them. There is some entertainment within these pages, just as there are some touching moments and memorable sections that will stay with me for a while. All those things said, I don't know that I really bonded with the book the way some readers have and I think that is because I couldn't really bond with the characters. That is only my personal shortcoming, however. I kept looking at all of the interactions between Meena and her peers and thought I couldn't ever see myself in these situations, so of course I couldn't really accept most of it into my reading conscious the way I wanted to. I can't deny that the book deserved the attention it has gotten, having been longlisted for the Women's Prize. There is plenty of human observation in here and there are a lot of personal stories that many will be able to relate to. This is a well written book and I'm glad I picked it up.

The story of Meena, growing up in the only Punjabi family in the Black Country mining village of Tollington, from award-winning screenwriter Meera Syal. This hilarious novel is a set text for GCSE WJEC and Edexcel.
