**James Kavanagh, Waterford Press : Antarctic Wildlife: A Folding Pocket Guide to Familiar Species of the Antarctic and Subantarctic Environments (A Pocket Naturalist Guide)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Antarctic Wildlife: A Folding Pocket Guide to Familiar Species of the Antarctic and Subantarctic Environments (A Pocket Naturalist Guide):

1 of 1 people found the following review helpful. Identification made easy that fits in a pocket to take along  
By Terpsichore  
This will go with me on my trip. I've used one of these before and it really helps with identification of animals and birds. It is laminated and sturdy so will take a lot of handling in the field.  
0 of 0 people found the following review helpful. Handy  
By Jonathan Miller  
Handy and attractive intro and over of Antarctic wildlife. I think the tablet size will be just right- similar to print. Not so sure about any e- version in inclement weather.  
0 of 0 people found the following review helpful. Handy for visual ID's  
By Kipperd Snack  
Compact and easy to take with for reference on a trip to ANTARCTICA. I love these little guides though they do not contain much info on the birds, they are handy for visual ID's.

Antarctic Wildlife is a pocket reference guide to more than 120 of the most common species of marine birds, whales, seals, fishes and marine invertebrates found in this remote region. Beautiful illustrations and detailed descriptions highlight the distinguishing features of the familiar species eco-tourists are most likely to see on land and at sea during their visit. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use. Made in the USA.

About the Author  
Zoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the sciences and world cultures. In addition to creating over 500 simplified nature guides, he has also authored guides to languages, cities and outdoor skills. An avid traveler and backpacker, Kavanagh's path has taken him around the world to many remote destinations including the upper , Africa, Australia, and the Arctic Circle (and this is just the As). He is also the author of a series of state-specific guides to common species and natural attractions and a children's book on evolution. With 650+ titles in print and 6.5 million copies sold, Waterford Press publishes the largest line of folding-format reference guides in the industry. Our mission is to connect people to the natural world by making knowledge about wildlife identification, outdoor recreation, travel, and safety and survival skills accessible to a wide audience.
