**ITM Canada : Antarctica 1:8M Travel and Reference Map (International Travel Maps) by ITM Canada (2007-12-01)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Antarctica 1:8M Travel and Reference Map (International Travel Maps) by ITM Canada (2007-12-01):

0 of 0 people found the following review helpful. My own interest is as a layperson with a love for reading Antarctic fiction and books on early exploration ...By M. BaileyI have an older version of this map which shows its heavy use. I bought this one for a nephew-in-law who is an Antarctica freak. My own interest is as a layperson with a love for reading Antarctic fiction and books on early exploration and for watching documentaries and following ongoing research being conducted there.0 of 0 people found the following review helpful. Disappointed. Although map is largeBy J. SkeltonDisappointed. Although map is large, many important landmarks and locations are not marked. Detaille Island, a major stop during most Antarctic cruises, is not marked. Even the Antarctic Circle is not shown on the map.I will be returning this map as it does not have the detail I expected.
