**Globetrotter : Antarctica Travel Map (Globetrotter Travel Map)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Antarctica Travel Map (Globetrotter Travel Map):

6 of 6 people found the following review helpful. I just had to have it.By TanstaafI have absolutely no use whatsoever

for a map of Antarctica. But - as soon as I saw this listed, I knew I was going to order it. It is cool! The front is a physical map of the continent, and the back is the political map. There are several boxes of info about Antarctica on front and back. The scale is 1:9,500,000. General comments about the Globetrotter Travel Maps: These Globetrotter maps measure 28" x 39". The fronts are really 28" x 34" because the left 5" is the unfolded heavy cover. They are printed on heavy paper that should hold up well under normal use. I have bought a dozen of these (and there are a few more I want). Their being available under 's 4 for 3 deal is a bonus. 2 of 2 people found the following review helpful. All you need to see By Robert N. Jenkins You're not going to be asked by the captain to help plot the voyage, but you can easily follow along here to find the most-visited landing sites for the 300 or so tourist ship departures from Ushuaia to Antarctica. Worth the price, to let you grasp enough details of your trip. 1 of 1 people found the following review helpful. Excellent By D. L. Cummings This is an excellent map. It has details that aren't on any regular maps, and I found it intriguing to look at. High quality!

The highly successful "Globetrotter Travel Series", which includes Travel Guides, Travel Maps, Road Atlases, Best Of Pocket Guides and In Your Pocket Language Guides, presently covers more than 90 destinations worldwide. "The Globetrotter Travel Map of Antarctica" has been specifically designed as guides to both the physical and the political continent. This informative map, with stunning shaded relief, features a large-scale physical projection of the continent and a detailed political map complete with up-to-date statistics. The maps are ideal for home, school and office use, and contain interesting country facts.
