G. Wyman Bury : Arabia Infelix: Or the Turks in Yemen (Folios Archive Library) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Arabia Infelix: Or the Turks in Yemen (Folios Archive Library):

Originally published in 1915, the author George Wyman Bury 1874-1920 was linked by T.E. Lawrence in his introduction to "Arabia Felix," as one of the great young Arabists. Bury was a scientist by training but he was an apt observer of the culture and politics of the Yemenis, the Turks and the British Empire in the East. Many of his scientific discoveries are contained in the British museums, but his astute and colorful observations of Yemen pre-World War One provide insights even to modern events.
