Mahmoud Gaafar : Arabic-English/English-Arabic Dictionary Phrasebook (Hippocrene Dictionary Phrasebooks) before purchasing it in order to gage whether or not it would be worth my time, and all praised Arabic-English/English-Arabic Dictionary Phrasebook (Hippocrene Dictionary Phrasebooks):

As the national language of nearly 20 countries in Africa and Asia, and spoken by approximately 190 million people, Arabic is the lingua franca of the Middle East. This title uses a standard Arabic helpful to those travelling all over the region. The emphasis is on commonly heard terms and phrases that are recognizable throughout the Arabic speaking world. Both the dictionary and phrasebook incorporate the Arabic script and its romanized transliteration. The two-way dictionary contains important travel, geographical, and cultural terminology, while the phrasebook focuses on the needs of travelers and covers almost every situation from arrival to departure.
