very useful for my community education presentations to children and adults.0 of 0 people found the following review helpful. Excellent information with great photosBy Riley SimonExcellent book to prepare us for our upcoming trip.0 of 0 people found the following review helpful. Three StarsBy kiwiSorry there were illustrations, albeit lovely, instead of photographs.

An engaging and beautifully illustrated guide to the birds, animals and marine life of the Arctic Ocean and its polar fringes. Tony Soper's expert knowledge is richly supplemented with full-color illustrations by award-winning wildlife artist Dan Powell. This edition includes a new section on the distinct flora and fauna of the Bering Sea, an area about to see a significant increase in visitor numbers as a result of changes in the ice cover. Many expedition operators recommend this guide. Tony Soper has presented programmes for the BBC. Dan Powell is an award-winning illustrator.

A beautifully written, engaging text...exquisitely illustrated. WWF Arctic Bulletin
