**Andrew Wilkes : Arctic and Northern Waters** before purchasing it in order to gage whether or not it would be worth my time, and all praised Arctic and Northern Waters:

A major new work from the RCC Pilotage Foundation, this pilot covers the Northwest and Northeast Passages through the Arctic Ocean. Incorporating information collected on a number of voyages over recent years this work is an impressive resource which brings together experience and background data on a region that is not only in the news but increasingly accessible to cruising yachts. The RCCPF pilot Faroe, Iceland, Greenland has been updated and merged into this new volume. Arctic and Northern Waters is in the same style as other PF pilots and is a practical cockpit

reference as well as a source of inspiration for planning.
