Frédéric Regard : Arctic Exploration in the Nineteenth Century: Discovering the Northwest Passage (Empires in Perspective) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Arctic

Exploration in the Nineteenth Century: Discovering the Northwest Passage (Empires in Perspective):

Focusing on nineteenth-century attempts to locate the northwest passage, the essays in this volume present this quest as a central element of British culture.

'The depth of scholarship evident in the individual essays is impressive, and they complement each other in obvious and unexpected ways... the book forms a valuable and enjoyable addition to scholarship on exploration narratives and provides remarkable insight into the lives of the best-remembered participants in the nineteenth century British quest for the Northwest Passage.' *Journal of British Studies*
