From CABI : Arctic Tourism Experiences: Production, Consumption and Sustainability before purchasing it in order to gauge whether or not it would be worth my time, and all praised Arctic Tourism Experiences: Production, Consumption and Sustainability:

This exploration of Arctic tourism, focusing on tourist experiences and industry provision of those experiences is the

first compilation to concentrate on the fundamental essence of the Arctic as being a geographical periphery and is also an experiential core that offers peak tourism experiences. Part 1 investigates the depth and dimensions of tourist experiences in the Arctic. Chapters examine the essence of diverse peak experiences and delve into the factors that give rise to these experiences. Part 2 considers the links between these core experiences and the tourism industry that seeks to sustain itself by facilitating such satisfying outcomes.
