**Matt Chesterton : Argentina (Insight Guides)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Argentina (Insight Guides):

Great buy, packed with incitful information By Jonathan Lombardo Great book! I bought it when I began seriously dating my Argentine fiance and still read different chapters of it all the time; especially about Argentina's history (political leaders and previous militarist factions), lifestyle and their diverse population. This is definitely a tourist book, highlighting all the best stops throughout the country, and

what routes to take depending on the time of year, but it's a great educational read, too. The photography is beautiful, and will likely inspire you to further your research.
