AutoMapa : Argentina Road Map by AutoMapa (Spanish Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Argentina Road Map by AutoMapa (Spanish Edition):

8 of 8 people found the following review helpful. My pick, but I wish it was in English. By LexiDavid We are traveling to the Patagonian lakes region next week. I ordered four Argentina/Patagonia maps to compare them: ITM's Patagonia, Rutas de la Argentina, Rough Guide Map Argentina, and Map Guide Patagonia. I ended up keeping the Rutas de la Argentina and returning the others. Argentina Road Map "Rutas de Argentina" had the clearest graphics despite the fact that the southern half is at a slightly larger scale than the northern half and most of its competition. We plan to use this for road navigation and hope it will do the trick. It does not cover any of Chile beyond the frontier. 1 of 1 people found the following review helpful. Great for the big picture. By Ace 67 With the aid of the map, we were able to easily get from point A to B experiencing only minor difficulties. If you don't read or understand Spanish it may be a little more challenging as this is the Spanish Edition. On the other hand, being in Spanish it was very helpful when you had to show the map to someone to ask advice regarding a specific route.

Road map of Argentina and portions of Chile, Paraguay and Uruguay shows roads from highways to minor roads and roads under construction; distances in kilometers; airports; cities and other settlements; National Parks; World Heritage sites; tourist sites; customs and police control checkpoints; tollgates. With maps of: Misiones province; Argentine portion of Antarctica; Malvinas Islands; other islands in the region; routes to Cordoba; routes to Buenos Aires; routes to Rosario. Includes index of settlements with 500 or more inhabitants. Printed on both sides. Main map scale 1:2,000,000. Mainly in Spanish; map legend bilingual with English.

About the Author AutoMapa, a well-respected publisher of maps in Argentina, is also a well known brand of maps of the country distributed abroad. Their city, province, and region maps are easy to read and very popular; a fine example of mapping as a universal language. Each map in the series is updated every two years.
