National Geographic Maps - Reference : Arizona [Laminated] (National Geographic Reference Map) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Arizona [Laminated] (National Geographic Reference Map):

0 of 0 people found the following review helpful. ... used this map as a wall map for some fun wall art in a spare room
By Laura used this map as a wall map for some fun wall art in a spare room. It's large enough to put pins in. If you get up close, you can see most areas and major roads clearly. Note that this is just of the state and it is a little hard to read the surrounding areas that are more greyed out. It came in a tube, so it ready to roll out and onto the wall. No creases like the traditional road maps.
2 of 2 people found the following review helpful. Useful State Map
By From My Perspective The laminating quality is excellent. The map is large, includes great detail and is very legible. I find it very useful to refer to for the project I am working on at present. I have it mounted on my wall using tacks...so the lamination weight matters. Overall --high quality. I would purchase other state maps of this brand from this vendor.
2 of 2 people found the following review helpful. Great detailed map.
By Joshua Great detailed map. It is a strange size if you are trying to mount it. But the tradeoff is that it's big, which is nice.

National Geographic's wall map of Arizona is part of a growing series of State Wall Maps. From the Grand Canyon to the Sonoran Desert, the state is rendered in dramatic detail. Stunning shaded relief and vibrant colorization depicts mountain ranges, forests, deserts, canyons, and other physical topography. Prominent peaks, major lakes, rivers, and reservoirs, and other geographic features are highlighted. In addition to hundreds of place names, this map includes the locations of cities, major roadways and railways, airports, military bases, ski resorts, national and state parks, and recreation areas. This expertly designed map makes an attractive addition to any office or study. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:765,766 Sheet Size = 33" x 40.5"

About the Author Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
