This gazetteer is so detailed - showing even the tiniest of roads and back roads, rivers and streams. It has tons of great, specific information about every part of Arkansas. 1 of 1 people found the following review helpful. great map, got here so quick By -a This was a super saver shipping item, and it arrived the day after i order it. It came so quick and helped greatly with a nice vacation to Arkansas. Crater of Diamonds, Mt. Ida,

Hot Springs, Mt. Magazine, Eureka Springs, Cosmic Caves, and Blanchard Spring Caverns are all awesome places to check out! 0 of 0 people found the following review helpful. Pretty good, but could offer more

This is a pretty good map atlas, but my big complaint is that it does not distinguish the road surface for the "back roads". I tour on a bicycle and need to know whether the road is paved or not before I get there. These books have the roads, but not what type of road they are. Also, the colors are such that it is difficult to see the roads among the other stuff on the map. I'll chalk this up to my aging eyes as much as the map though.

The first choice of outdoors enthusiasts. Beautiful, detailed, large-format maps of every state. Perfect for home and office reference, and a must for all your vehicles. Gazetteer information may include: campgrounds, attractions, historic sites museums, recreation areas, trails, freshwater fishing site boat launches, canoe trips or scenic drives. Categories vary by state
