Eveylena Jones Hilton : California Here We Come before purchasing it in order to gage whether or not it would be worth my time, and all praised California Here We Come:

0 of 0 people found the following review helpful. a wonderful adventure of a family's pursuit of happiness!By Claude1What a great read! I too felt part of this adventurous family, determined to head west, through all troubles, trials and laughs. I laughed, such love this family had for each other. A young man and his family head west, and what an adventure. They meet some kind folks along the way, hard times as well. But their love for each other and

determination to pursue happiness was great than any road block. A fun, funny read.0 of 0 people found the following review helpful. Buy this book it great!By Samantha SharumVery cool book. Real life amazing story. Gotta read. Makes you laugh. Back in the day they did what they had to survive and make a living.0 of 0 people found the following review helpful. Gripping, Funny, and TrueBy Teri Lyn NorwoodThis book was a dream of my Aunt Eveylena's to write the very words her put down and share with the rest of the reading world. She did not change one word and that includes the exact spelling and punctuation as she wanted it to be authentically all her fathers. Once I started reading the saga of the families journey I could not put the book down. There were hilarious moments, and gripping moments, as well as very heartfelt moments. The story is one I believe any one who was looking for a life "Out West" in that era can definitely relate to. I highly recommend this book as one for your bookshelf and even as a gift. It shows that with perseverance and determination the American dream and ones goals can be met no matter the trials and tribulations that might get in ones path.TeriLyn NorwoodLemoore, CA

This book is about a family of nine that hitch-hike three thousand miles, from Johnson city Tennessee to California trying to find some peace in his life.

About the AuthorI am Robert M Jones daughter. I want to make my dad's dream come true. I learned a lot from him. I myself have 4 kids and 8 grand-kids, 1 great. My husband and myself is retired. I am looking forward to seeing this book go some where.
