Another popular regional guide to nude beaches recommended by Dr. Leisure is Dave Patrick's California's Nude Beaches. A hundred and fifty pages of good information and some very fine black and white photography of nude beach inhabitants. Dave even has a section called Naturist Photography in the '90s. It is obvious from the photographs that Dave knows what he is talking about. Highly recommended by the number one source of information on nude recreation on the net. DrLeisure.com.

hawaii

nudism in hawaii may not be so called "legal", but a lot of people do and just find there own private or group area of like minded people and ignore the rest. tourists who happen upon one of these areas usually just walk on by and will let you be, or they sometimes will ask questions respectfully and leave(which my wife and female friend found out to be true on our last visit to the kona coast)
