1 of 1 people found the following review helpful. Fascinating read about an audacious planBy Kristine McCaffreyIn "Call of the White," Felicity Aston recounts taking 7 women to the South Pole. What makes this story unforgettable is that these women weren't trained outdoor/polar experts; they were average women, all with a desire to push beyond their boundaries. Through an interview and pre-selection process in Norway, she chose women from Cyprus, India,

Singapore, New Zealand, Ghana, Jamaica, Brunei Darussalam and the United Kingdom. Aston recounts their efforts to raise money, to deal with team conflicts, and ultimately, to ski (pulling a sledge) 900 km (560 miles) from the coast of Antarctica to the South Pole. The expedition took 38 days. This is a fascinating read about an audacious plan. Some of the women had never before seen snow, let alone skied. This tale is a testament that anything is possible. And yes, they succeeded. 1 of 1 people found the following review helpful. Inspiring read By Kelli Anderson-Barkley Felicity writes with a raw passion by capturing the moment with truth and transparency. Reading this book allowed me to venture on this journey with the eight brave women who set out to do something phenomenal for themselves. In turn they each inspire us as individuals to reach outside our own comfort zones to make an impact on this world around us. Thank you for sharing your journey. 0 of 0 people found the following review helpful. This book is an exciting adventure. By Jky The reader is given a breath-taking visual picture of a part of the world that is not included in travel guides. The courage, stamina, and determination of these women who made this journey is amazing.
