Geographers' A-Z Map Company : Cambridge Street Atlas (A-Z Street Atlas) before purchasing it in order to gage whether or not it would be worth my time, and all praised Cambridge Street Atlas (A-Z Street Atlas):

0 of 0 people found the following review helpful. If you're going to Cambridge, UK, make sure to bring this with you. By Edith MacIntyre Outstanding, high-quality, very detailed street atlas of all of Cambridge, as well as some of the surrounding towns. Includes a very zoomed-in, super-detailed map of the city center, which is mandatory for anyone traveling to/staying in Cambridge City Center, and for those of us who are planning on moving there, or already have. Almost every single street, including many of the tiniest and shortest, are clearly identified. Shows the locations of schools, universities, hospitals, etc. This atlas is so great that, after looking closely at the center of Cambridge in here,

I was able to memorize the streets and many public buildings in that area. The best!
