DoniganThis book, written by a Smith college fellow graduate (class of 1954), is a great birthday gift for our kids who go camping, to help them in their camping with their own kids, our grandchildren.0 of 0 people found the following review helpful. Extremely thorough first-timer' guideBy TheresaThe author covers camping by seemingly every possible angle.

Peppered with personal anecdotes or from those she has interviewed, the information contained in this interesting guide is exhaustive. Once in a while, she belabors a topic to the point of lecture, but these are few and far between. A must-read for anyone (like me!) who has always wanted to camp but didn't grow up in a camping family! 8 of 8 people found the following review helpful.
