Rachael Hanel : Can You Survive Antarctica?; An Interactive Survival Adventure (You Choose: Survival)
before purchasing it in order to gauge whether or not it would be worth my time, and all praised Can You Survive Antarctica?; An Interactive Survival Adventure (You Choose: Survival):

0 of 0 people found the following review helpful. I use this with my struggling readers at about 4th ...By Peggy M. Wilber I use this with my struggling readers at about 4th grade level. The choose-your-own idea is very motivating for them! 0 of 1 people found the following review helpful. Great for kids and fun for adults too. By Kristi My youngest

daughter (age 10) is so into these books. She loves to make different choices within the books to see the various outcomes. 1 of 2 people found the following review helpful. Great adventure
By learning support teacher
This is a really good book to read when students are studying Antarctica. The historic part is done very well, even though it is quite brief. I would have liked the choice of going on with Amundsen or going to land, when he revealed that he was going to the South Pole rather than the North Pole as his crew originally thought. What stopped me giving it an even higher rating is that it says that Mawson is a British explorer. He is most definitely Australian and even features on the Australian \$100 note. This needs to be corrected. However the vocabulary is easy to read and the photographs are well placed and interesting. I will be using this book with my class and it is useful for older students who have learning difficulties. The use of a Table of Contents, Glossary, Index etc and the survival questions at the back make it a very useful teaching tool. Thank you!

You are surrounded by the vast, unforgiving landscape of the coldest place on Earth Antarctica. Even during the summer months, bone chilling cold, raging blizzards, and treacherous ice threatens human survival. Will you, Join the race to be the first to reach the South Pole? Attempt to ski across the continent as part of an all female expedition? Study Antarctic plant and animal life as a scientist at a research station? Experience the life or death dilemmas of a place few people ever see. YOU CHOOSE what you'll do next. The choices you make will either lead you to safety or to doom.

About the Author
Rachael Hanel has written several nonfiction books for children, in addition to essays and news and magazine articles. Many of her books have focused on history and social studies. She has a bachelor's degree in journalism and history and a master's degree in history from Minnesota State University, Mankato. She works as a writer, college instructor, and university administrator from her home base of Madison Lake, Minnesota.
