Beautiful MapBy CustomerThis is a beautiful map and will last for a long time, so glad we bought the laminated version, with all the looking and poking that kids do it will stand up to their dirty little mits. The only thing I wish is that it was only in English, it's not the worst thing in the world, but none of us speak or read French so it does us no good, just fills up the map with more words.0 of 0 people found the following review helpful. One StarBy Patrick F.Map had been folded. Lots of creases. Very disappointed

The Executive political map of Canada is a striking example of the cartographic excellence National Geographic is known for. This map features an attractive antique-style color palette, stunning shaded relief, thousands of place names, accurate political boundaries, national parks, archeological sites, and major infrastructure networks such as roads, airports, canals, and railroads. In addition to Canada, coverage includes Iceland, Greenland, and the northern United States. The map is encapsulated in heavy-duty 1.6 mil laminate which makes the paper much more durable and resistant to the swelling and shrinking caused by changes in humidity. Laminated maps can be framed without the need for glass, so the frames can be much lighter and less expensive. Map Scale = 1:6,468,000 Sheet Size = 38" x 32"
