It gives 2 favorite rides per province and some rudimentary maps. The unfortunate thing is that it's difficult to read since it just narrative after narrative. It needs to be rewritten and updated. It needs better editing with subcategories and color maps. 0 of 1 people found the following review helpful. Five Stars By David A Wright great

Book by Dennis, Jerry

From Library Journal Dennis, coauthor with Craig Date of Canoeing Michigan Rivers (Friede Pubns., 1986), makes

bicycle touring through the vast landscape of Eastern Canada an exciting possibility. Twelve tours in the provinces of Nova Scotia, Newfoundland, Prince Edward Island, New Brunswick, Quebec, and Ontario cover distances as short as 96 kilometers (a tour of Fundy National Park) and as extensive as 779 kilometers (a tour of Lake Superior's North shore). These routes are designed for extended, overnight touring, although each is divided into single-day segments. Dennis has taken great care to report road conditions, scenery, history, weather, and terrain. His descriptions of the countryside are fresh and lively. Mileage cue sheets are not provided although roads, directions, and approximate mileage are explained within the text. A first-rate bicycle touring guidebook. Recommended for sports and travel collections.- Elizabeth Skinner, Forsyth Cty. P.L., Winston-Salem, N.C. Copyright 1992 Reed Business Information, Inc.
