Inadequate detail, not all towns or roads are listed, making it hard to navigate, period. We had to stop and buy a generic Alberta map to navigate.0 of 0 people found the following review helpful. Very nicely made. Could withstand considerable rainfallBy Practicle1Very nicely made. Could withstand considerable rainfall. Nice photos and general information. Not much detail such as point to point distances and useful points of interest. I would not buy again.7 of 7 people found the following review helpful. DisappointingBy CustomerThis maps omits secondary, but key, roads along with town maps. Also, the color scheme makes it hard to read. Better maps are available.
