Roads and trails seem to agree with the free maps, but the labels are confusing. Map even refers you to the FREE Dixie forest map available at BLM offices. Seems to be more suitable for Hiking than for ATV purposes. Product description is poorly written - doesn't say it's primarily for non-motorized use. Word of warning, if you are looking for ATV trail maps, make sure the description says "ATV TRAILS". Very disappointed - waste of money.0 of 0 people found the following review helpful. I love these mapsBy Mojave702I love these maps. Great color, material, and detail. The only thing I don't like is that they are double sided so you can't really mount them on a wall b/c one side wouldn't be visible.0 of 0 people found the following review helpful. Good mapBy GWMMy husband used this to plan his Father's Day trail ride. Had everything he needed to know.
