**National Geographic Maps - Reference : Central America Classic [Tubed] (National Geographic Reference Map)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Central America Classic [Tubed] (National Geographic Reference Map):

0 of 0 people found the following review helpful. Five StarsBy EdieDetailed and accurate. What more could you want. I laminated my map and put it on my coffee table for reference.1 of 1 people found the following review helpful. Good map (paper)By AdvancingTheFrontiersofKnowledgeGood map (paper). Not laminated, but a little less expensive. Can easily be framed, which is what I did, to preserve its integrity. Otherwise, map can be damaged (flimsy). Overall, I feel map deserves 5 stars, because it meets its intended purpose at a reasonable price. Recommended.3 of 3 people found the following review helpful. Good overview map of the areaBy K. AndrewsThis is a good overview map of Central America. It is just the right size that we could put it on the wall for ready reference for vacation and retirement planning.

National Geographic's map of Central America is as attractive as it is functional. The signature Classic style features a bright, easy to read color palette with blue oceans and the regions terrain detailed in stunning shaded relief that has been a hallmark of National Geographic wall maps for over 75 years. The map includes thousands of place names, accurate boundaries, national parks, archeological sites, and major infrastructure networks such as roads, canals, ferry routes, airports, and railroads. Coastal bathymetry, and symbolism for water features and other land forms, as well as elevations, depth curves, and soundings are shown. Coverage includes the countries of Guatemala, Belize, El Salvador, Honduras, Nicaragua, Costa Rica, and Panama. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:2,541,000Sheet Size = 28.75" x 22.25"

About the Author  
Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
