This beautifully illustrated guide highlights over 140 familiar and unique species of mammals, birds, reptiles, amphibians, pond invertebrates, fishes and butterflies and includes a park map featuring prominent wildlife-viewing areas. Laminated for durability, this lightweight, pocket-sized folding guide is an excellent source of portable information and ideal for field use by visitors and residents alike. Researched with the assistance of the Central Park Conservancy, a portion of the proceeds go to support the important work of this organization. Made in the USA.
