it's just data. For example, if you wanted to get a cheap hot dog, you get a list of hot dog places, their prices, etc. But you don't get recommendation on which hot dog place is the best or which just gives you the most bang for your buck. You just get the raw info. This may prove useful, but after having paid ten bucks, I expected more. So because I open this big book of data, I am going to issue a fair rating - 3 stars for a lackluster book. (if the author drops the book down to 99 cents, it may be worth a 4 star - maybe)0 of 0 people found the following review helpful. just OKBy BoranceIf you're really a cheap bastard you can save money by not buying this book and, instead, using yelp and tripadvisor. The book is centered around the hotel-casinos and what's in them. However, if you have never been to Las Vegas, this book is a good beginning. You will get a pretty good idea of what to expect once you arrive.As far as saving money goes, don't eat in the casinos. There are wonderful restaurants if you leave the strip.The book doesn't tell you that the old days of great Las Vegas shows are no more. Don't go there for the shows. Do go for glitz, great eating and incredible upscale shopping.27 of 28 people found the following review helpful. What Secrets?By JT300The cover says "secrets of living the good life for less". This is a list of businesses with their addresses and phone numbers. There are no secrets. Her tip for getting a good price on hotel rooms is "before you go, set aside an hour and call 15 or 20 casinos". Seriously?For free entertainment in Las Vegas she includes computer classes at one of the local Libraries.This book was in the trash less than an hour after receiving it. I am now dumber for reading it, she receives no points and may god have mercy on her soul.

Las Vegas is full of free and ridiculously cheap stuffone just needs to know where to look. Leave it to The Cheap Bastard to uncover all the ins and outs and exclusive bargains to be had, and to set forth the real deal with wit and humor.

From the Back CoverYes, you heard it right: Las Vegas is full of free and ridiculously inexpensive stuffyou just need to know where to look. Leave it to The Cheap Bastard to uncover all the ins and outs and exclusive bargains to be had, and to tell you the real deal with wit and humor.
