Sandra Gustafson : Cheap Eats in Italy '99 Ed before purchasing it in order to gage whether or not it would be worth my time, and all praised Cheap Eats in Italy '99 Ed:

0 of 0 people found the following review helpful. Good but limitedBy Patsy E, Cheese LoverI have read most of this book and think that the material included is helpful. However, I was unaware that the book focused on only a very few cities. Having been used to Ms. Gustafson's books about France, I expected much more. The information given is helpful, but definitely limited.0 of 0 people found the following review helpful. Divine EatsBy Don KlineI travel to eat and, with this guide in hand, I ate memorably in a different restaurant or trattoria every night for three weeks in Venice

and Rome. The author's listings are, for the most part, unique to this book and evaluate an establishment's menu, service, ambience and location. (All locations were easy to find.) Her reviews are well written and reliable: she has eaten repeatedly at every restaurant that she lists. This book allows those with discerning palettes to dine well in the company of in-the-know natives. Friends who live in Rome were so impressed by the author's reviews of the restaurants already known to them that they were eager to try several others from the book and asked for my copy when I left Italy. (I gave it to them, of course.) Note: The author's "Cheap-Sleeps" series is just as accurate in its descriptions of different levels of accommodations, the best of which need to be booked months in advance. 4 of 4 people found the following review helpful. If you want a book for food places this is it !!! By Catskill Jason My wife and I have used this book in Rome on two occasions and were extremely satisfied both times. I believe there is now a revision appropriately entitled "Great Eats in Italy". Both books cover Rome, Florence, and Venice. The book is fairly accurate about the menus so you know what to expect (where to go or not to go based on your preferences). The meals are not cheap. They are reasonable. I think the author does herself a disservice but using "cheap eats" in the title of the book. Cheap is not relevant with this book. These are very good places to eat at reasonable prices. You can a vacation just sampling her recommendations. We let other people borrow this book from us when they go to Italy... I bought her other books for Paris, and Spain (Barcelona, Madrid, and Seville). She has another one for Prague, Vienna, and Budapest. Keep 'em coming!!!

A guide to finding the best restaurant and cafe food for the lowest prices in every region of Italy.
