It's thin, flimsy paper that doesn't weather the shopping process at all. As others have said, it's NOT laminated. It's also non-standard size so it doesn't fit into a poster frame. And since it's such thin paper, you need some way to hang it. Super disappointed.1 of 1 people found the following review helpful. Perfect for young mindsBy Dustin SchroederWe love it but give it a 4 star because some of the icons are hard to distinguish. Maybe a textual annotation would help for some of the countries? Otherwise it is a great addition to our at home school room9 of 9 people found the following review helpful. Not laminatedBy M PalmaBe careful when ordering this item. It's not laminated and will be susceptible to damage from markers, frequent handling, etc. To call it laminated is very misleading!

This CHILDREN'S WORLD MAP for kids who you are trying to teach them about the world. A colorful, educational world map which will keep your kids entertained for hours. The children's world map was specially produced for kids, and provides a great way for you to spend time with your kids and educate them, while all the time having fun! In this increasingly connected world, it's important to give your kids an understanding of different countries and cultures. The map offers a wealth of information. It shows more geographical features including: international borders, flags, countries, major cities, seas and oceans, mountain ranges, major rivers. More than 300 of illustrations and descriptions on the world map show: animals throughout the world and indicates the areas where they live, explorers, historical items, cultural items, ships and sailboats, legend of icons. Size: 27.5x39 inches, Rolled Laminated with Polypropylene film (Standard thermal laminating film). You can write with dry erase marker or water-based pen above it and wash it easy.
