From Bucher : Chile: A Journey Through Extremes before purchasing it in order to gage whether or not it would be worth my time, and all praised Chile: A Journey Through Extremes:

1 of 1 people found the following review helpful. Gorgeous photographyBy Bay WalrusFans of Patagonia will love to get their hands on this book. Extremes is a good word for a country with the world's driest desert and most lush forests. There is also good material on Chilean culture, food and customs. Highly recommended.

Land between fire and ice. --An exciting presentation of one of South America's most varied countries. --Stunning photography, essays on history and culture. --Both the author and the photographer are Chile specialists.
