**From Hutchinson Ross Inc.,U.S. : Chile-California Mediterranean Scrub Atlas: A Comparative Analysis** before purchasing it in order to gage whether or not it would be worth my time, and all praised Chile-California Mediterranean Scrub Atlas: A Comparative Analysis:

The book is one of a series of volumes reporting results of research by U.S. scientists participating in the International Biological Program (IBP). As one of the 58 nations taking part in the IBP during the period July 1967 to June 1974, the United States organized a number of large multidisciplinary studies pertinent to the central IBP theme of "the biological basis of productivity and human welfare".
