By insecta rebecca
While I was traveling around China last summer, I was never without this phrase book. I brought several dictionaries and phrase books with me and, in the end, this one was the most helpful. On a day when I didn't have much room in my pack, this was the book I always made room for. That being said, no phrase book is going to be perfect, so, when I could spare the space in my bag, I would also pack a pocket-sized Chinese dictionary to supplement this phrase book. One improvement that I would suggest for this item is that it could really use some more blank notes pages. I mostly eat vegetarian food when I can and, as I learned the pinyin and characters for the different veggies I wanted to order, I had trouble cramming my notes into the small bit of blank space in this book. Overall, this book was very useful and definitely saved my butt on more than one occasion!

Helpful. 5 of 5 people found the following review helpful. As important to have in China as your passport!
By Warren S. Levine (warren@worldsourcing.com)
I've done international business with China for 20 years, speak some Mandarin, and I carry this book in my passport/airline ticket folder. My general Chinese is pretty good, but this book is invaluable. The tips and hints are also extremely insightful, and I heartily recommend it to anyone traveling to China or Taiwan for the first or the hundredth time.
