Peter Hubbel, Julie Garrison, Peter Hubbell : Classic Rock Climbs No. 17 Golden Cliffs, Colorado before purchasing it in order to gauge whether or not it would be worth my time, and all praised Classic Rock Climbs No. 17 Golden Cliffs, Colorado:

0 of 0 people found the following review helpful. Don't waste your money By William Sowell This book is outdated and the B/W pics of the routes are taken from distance with artist renderings for close ups. I took this book up to check out these routes and could not find more than 6 out of 200 the six I found were with the help of fellow climbers. This guy was obviously stoned when he put this thing together..... There's an idea maybe I should have been on

something and I too could relate to this POS guide.0 of 0 people found the following review helpful. Best Available book on Golden CliffsBy Robert S. PearsonI have used Golden Cliffs for ten years and it is the best available book for the Golden Cliffs (AKA North Tabletop). Photos and diagrams can be difficult to match to rock formations, but ask any experienced climber at the Cliffs where a route is located to orientate yourself. Numerous copies in climbers hands at the Cliffs and being used. Easy to hang top rope routes. Most routes also bolted for Sport climbing; ,most can use pro for Trad climbing. Low price book, numerous photos and diagrams; so if you can find a better reference (and you won't) --buy it.6 of 8 people found the following review helpful. Don't waste your money!By Alan NelsonThe author's "research" consists of copying previous guides to the area and transferring topos onto bad photos. Unfortunately, the result is incomplete, inaccurate, and incoherent. As best as can be determined, no effort was made to talk to any of the route authors for this area. You're better off going to the cliff and asking other climbers for directions, recommendations, route names, and grades.

This Golden sport climbing area is home to 200 of the best moderates around.

From the Back CoverFormerly known as North Table Mountain, this Golden sport climbing area is home to 200 of the best moderates around.
