Would be nice if the major landmarks like British Museum or St. Paul's could be looked up by name. 0 of 0 people found the following review helpful. Perfect. I see everything I need to see By Edwardo Perfect. I see everything I need to see.

This fully updated, pocket-sized atlas has an extensive area of coverage and shows the center of London at an extra large scale. The maps are exceptionally clear and easy to use with color coding for roads as well as locations such as shops, hospitals, hotels, schools, and more. This map includes the latest boundary of the congestion charging zone; color classified roads and buildings; postal district boundaries; car parks, hospitals, and police stations; tourist information centers; an updated underground map on the back cover; and a full index of street names. The area of coverage extends from Chiswick in the west to Barking in the east and Hampstead in the north to Dulwich in the south, and the scale is 1:20,000 (3.17 inches to 1 mile), with coverage of Central London at 1:12,500 (5.1 inches to 1 mile).
