**Collins UK : Collins Scotland Touring Map** before purchasing it in order to gage whether or not it would be worth my time, and all praised Collins Scotland Touring Map:

Best for camping, but not for roads By Colorado Mike Nice map, has a lot of the campground, hostel, castle and tourist info locations noted, but not much else. If you are camping across Scotland I would think you would get a dedicated campground map, but this might work. Unfortunately the roads were not shown as well as the road map, which is to be expected, so we didn't end up using this map as much as we expected and could have done without it.  
2 of 2 people found the following review helpful. Great map By Monica Lawrence We used this for our driving tour in Scotland. We did not need a GPS (or Satnav as it is in Scotland), and instead just relied on the map. The only thing is that you really need a "co-pilot" if you are going to use this in the car, as it is a very large map.

This official map of Scotland is published in association with Scotland's national tourist authority, Visit Scotland. A comprehensive map showing the locations of more than 1700 places to visit and things to do, it is easy to use, with leisure and touring information. It features the locations of castles, churches, cathedrals, historic houses, art galleries, museums, distilleries, theaters, country parks, gardens, nature reserves, forest trails, wildlife parks, golf courses, fishing, boat trips, skiing, guided tours, monuments, antiquities, scenic and architectural features, camping and caravan sites, Tourist Information Centres, and National Tourist Routes. The map has comprehensive road and motorway information and a distance chart. The scale is 5 miles to 1 inch (1:316,800).
