My old atlas was at least 35 years old and so far out of date, that I could hardly find what I wanted in it. This new one has everything that I want and need and it is no trouble to look up countries/cities. The grandkids like it because it has all the 'new' countries and they use it for their reports at school. Maybe I just waited until they all were of an age to use it to the best of their abilities. I love it too!!! 6 of 6 people found the following review helpful. Fullfilling My Wanderlust By L.Reed Been doing a bit of worldly travel lately. Have my PC, my smartphone my tablet.
