Rails-to-Trails Conservancy : Rail-Trails Washington and Oregon before purchasing it in order to gage whether or not it would be worth my time, and all praised Rail-Trails Washington and Oregon:

0 of 0 people found the following review helpful. Good info for Northwest ridersBy Diane K.Gift for cycling husband. Excellent information. He's enjoying the book.0 of 0 people found the following review helpful. I am going to try one of the rides soon ...By Linda MottI am going to try one of the rides soon. The book gave me lots of info about the trail. I am excited to ride one of them.1 of 1 people found the following review helpful. Four StarsBy Robert

Griswold Handy book for Northwest walkers and bike riders.

Across the country, more than 1600 unused railroad corridors have been converted to level, public, multiuse trails, where people can enjoy a fitness run, a leisurely bike ride, or a stroll with the family. In this new guide in the popular series, the Rails-to-Trails Conservancy presents the Northwest region's finest rail-trails plus other great multiuse trails. Rail-Trails Washington Oregon includes detailed coverage of more than 40 great trails. Many rail-trails are paved and run through the most scenic parts of town. Others travel along dense forests, open fields, and lush waterways. Some explore the area's history, and others help users enjoy the serenity of the rural countryside. Favorites noted by Rails-to-Trails Conservancy staff include the Chehalis Western Trail and Olympic Discovery Trail in Washington and the Banks-Vernonia State Trail in Oregon. This full-color book includes succinct descriptions of each trail from start to finish, plus at-a-glance summary information indicating permitted uses, surface type, length, and directions to trailheads for each trail. Every trip has a detailed map that includes start and end points, trailhead, parking, restroom facilities, and other amenities.

About the Author The Rails-to-Trails Conservancy is a nation-wide advocacy group whose one great mission is to protect America's irreplaceable rail corridors by transforming them into multi-use trails. They are based in Washington, D.C.
