**From Metro Books : Rand McNally Atlas of the World: A millennium edition** before purchasing it in order to gage whether or not it would be worth my time, and all praised Rand McNally Atlas of the World: A millennium edition:

1 of 1 people found the following review helpful. GeographyBy Joyce B.This was a book that was required for a class that I took. It is a smaller version of the larger one that I was suppose to get. I was able to use it for my class and I was able to find all the information that I needed as a reference guide. I purchased this book for future reference and it will go onto my library shelf. It is always good to have a an atlas to refer back to to familiarize yourself on where certain places are in the world.1 of 1 people found the following review helpful. Notes indicated product was in "good condition with light amount ...By JillNotes indicated product was in "good condition with light amount of wear".

When the product arrived it had a cut diagonally through most of the front cover of the book. There is a generous amount of wear on the inside of the book as well. This is not what we expected. 0 of 0 people found the following review helpful. Five Stars By RyanGreat class and book!

From the premier publisher of maps and atlases for more than 100 years comes this comprehensive, authoritative, and oversized guide to the world. It includes 150 pages of rich detailed maps of the world, updated to reflect recent political changes. Enhanced coverage of the United States features a special section with individual maps of all 50 states. An introductory section contains a primer on cartography and the basics of map-reading; "The Real World," which provides an in-depth look at world climate, populations, people, and countries; and a time zone map of the world. For research, for homework, for trip and vacation planning, for following current events anywhere on the globe, or even for armchair travel, this atlas makes an invaluable addition to any home library.

**About the Author** Robert E. Gabler has nearly five decades of professional experience. He has taught for five years in public elementary and secondary schools, in addition to teaching geography at Hunter College, City of New York, Columbia University, and Western Illinois University. At times in his lengthy career at Western, he served as chairperson of the Department of Geography and Department of Geology, and University director of International Programs. He received three University Presidential Citations for Teaching Excellence and University Service, served two terms as chairperson of the Faculty Senate, edited the Bulletin of The Illinois Geographical Society, and authored numerous articles in state and national periodicals. He is a past president of the Illinois Geographical Society, former director of coordinators and past president of the National Council for Geographic Education, and the recipient of the NCGE George J. Miller Distinguished Service Award. During his tenure at Western, Dr. Gabler traveled widely throughout the United States, western and southern Europe, eastern Asia, and India, planning, organizing, and leading university exchange programs, conducting field research, and compiling extensive slide photograph files. His major publications include, editor: A HANDBOOK FOR GEOGRAPHY TEACHERS (Illinois Office of Public Instruction); co-author: FOLLETT ELEMENTARY SOCIAL STUDIES SERIES (Follett Publishing Company); senior author: INTRODUCTION TO PHYSICAL GEOGRAPHY (Rinehart Press); and senior author: ESSENTIALS OF PHYSICAL GEOGRAPHY.
