**Rand McNally : Rand McNally Central United States: Regional Map** before purchasing it in order to gage whether or not it would be worth my time, and all praised Rand McNally Central United States: Regional Map:

1 of 1 people found the following review helpful. Know where I'm going now By Charlie VI ordered the three fer. Eastern, central, western for an upcoming cross country road trip. We bought an atlas and while good for an overview or for interstate travel they are not detailed enough for backroad travel. We use gps always but I still need a paper map to select the route I want not necessarily the gps choice. These maps will suffice but still not as detailed as individual state maps. Happy with this purchase. 4 of 4 people found the following review helpful. Trusted Maps By Photojo While I favor Delorme and Benchmark maps for detail, this Rand McNally map gives me the big picture which is great when driving cross country. I can't count the number of these maps I've trusted and worn ragged through the years. Before putting this one to work, I taped all the folds with clear packing tape. 1 of 1 people found the following review helpful. It's a map. M By Kfilly It's a map. I have not traveled to every area on it, but it seems good enough. It is easy to fold this map. I just wish it was laminated. It is apart of my collection for old school navigation.
