**Rand McNally : Rand McNally-Cosmopolitan World Atlas** before purchasing it in order to gage whether or not it would be worth my time, and all praised Rand McNally-Cosmopolitan World Atlas:

Probably dozens of nations have come and gone in the intervening 30 years since it was published.Still, it's very handy to have a large world atlas around the house, to check the precise locations of towns and cities still not listed on the Internet. You'd be surprised.
