Rand McNally : Rand McNally Eastern United States: Regional Map ("Learn to" sports books) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Rand McNally Eastern United States: Regional Map ("Learn to" sports books):

1 of 1 people found the following review helpful. Great, but limitedBy JamesWorked great for my purposes, but be forewarned, its not exactly the most detailed of maps, and really should only be used for planning purposes, and major road travel.1 of 1 people found the following review helpful. Not detailedBy Jane G. SmileyThe map is hard to read because everything is so small and not detailed. I ended up getting the big map book.3 of 3 people found the following review helpful. Great "old" techBy Robert H. Steckelneeded a map to plan road trip stops that allows you to see the whole eastern US at one time. Unlike GPS and Others that lose detail the farther out you scan. Sometimes old tech is better than new high tech when you have a specific need.

Rand McNally's folded map featuring the Eastern United States is a must-have for anyone traveling in and around this part of the country, offering unbeatable accuracy and reliability at a great price.
