Rand McNally and Company : Rand McNally Notebook World Atlas before purchasing it in order to gage whether or not it would be worth my time, and all praised Rand McNally Notebook World Atlas:

0 of 0 people found the following review helpful. Not what I expectedBy Dria414I bought this for my daughter to use for her class because it was recommended. Do yourself a favor, buy the old school big ginormous world atlas book. You almost need a magnifying glass to read this thing. Not at all what I expected.0 of 0 people found the following review helpful. Great Atlas!By Sean on the BeachWell laid out.. great simple Atlas!23 of 23 people found the following review helpful. Good little atlasBy William JonesThis atlas has 3 small wire rings attached to the binding, allowing it to be inserted in a 3-ring binder. It has large maps of each continent, several U.S. maps, the flags of the world and a mercator projection map of the world. All in all, not a bad deal. Compares favorably with many larger, more expensive atlases.
